

October 2025

Design and Technology Unit – Moving Vehicles

Dear Parent / Guardian,

For their Autumn topic, KS1 are learning about moving vehicles and how they work. The children have been exploring different types of wheels, axles and chassis, thinking about their purpose and suitability. Next week, they will be creating their very own moving vehicle in school.

To help with this project, we would be most grateful if you could please send your child to school with a small cardboard box on Monday 6th October 2025. A small shoe or cereal box (nut free) would be suitable. We do have a small supply of spare boxes in school if you are unable to source your own.

Please talk to your child about their design - they are very excited about their project!

Thank you for your support.

Kind regards,

The KS1 Team
