Dear Parent/Guardians,

**Design and Technology Unit – Spring 2- Electrical Alarm Systems**

Lower Juniors are very excited to announce our D.T. Unit - Electrical Alarm Systems. The children will be designing and making an alarm system to solve a problem.

For this DT unit, we would be most grateful if you could collect the following items which will help them to construct their alarm system:

- decorative paper
- thick, corrugated cardboard
- cardboard boxes (small boxes, cereal boxes and shoe boxes)
- kitchen roll tubing

Please could this be brought into school on **Monday 16<sup>th</sup> March** in a named bag.

To support the cost of this wonderful experience, we would be grateful for a small donation via Scopay (recommended £3) to contribute towards the cost of the battery holder, batteries, motor, lightbulbs holder and lightbulb. Ultimately, the children will get to bring their alarm systems home at the end of the unit.

We are very much looking forward to seeing the children's creations.

Yours sincerely,

**The Lower Junior Team**
