

April 2025

Science – The Senses

Dear Parent / Guardian,

For their science learning this half term, KS1 are learning about the human senses. The children will be exploring how we use our senses to experience the world around us.

As part of this learning, the children will take part in a taste test activity on Thursday 30th April 2026 which will involve identifying different flavours: sweet, salty, bitter and sour.

Please ensure that the school office holds up-to-date information regarding your child's allergies and dietary needs. If anything has changed, please inform the office as soon as possible. A member of the team will be in touch if you have not consented to taste testing on Arbor.

Kind regards,

The KS1 Team
